Features

Immersive Curved Display

Immerse yourself in the action with the immersive 1500R curvature. The 24-inch VA panel, combined with the 3-sided frameless design, creates a truly immersive viewing experience, pulling you into the heart of the game.

75Hz/5ms · 200Hz/1ms

Ultra-Smooth Gameplay

Stay ahead of the competition with an impressive 200Hz refresh rate and lightning-fast 1ms response time. Experience fluid visuals and ultra-responsive gameplay, ensuring every movement is smooth and precise, giving you a competitive edge.

Adaptive Sync OFF | Adaptive Sync ON

Enhanced Sync Technology

Enjoy tear-free gaming with the combination of G-sync and FreeSync technology. These advanced syncing technologies synchronize the monitor's refresh rate with your graphics card, eliminating screen tearing and optimizing performance for the ultimate gaming experience.

General display | Flicker Free | Low Blue Light

Eye-Care Technology for Extended Gaming

Our monitor features flicker-free technology and low blue light emission, minimizing eye strain during long gaming sessions. Play comfortably for extended periods without compromising on eye health and focus.

16.7M (8bit) | 99%sRGB

Impressive Color Performance

Experience vibrant and lifelike colors with support for 16.7 million colors and a 99% sRGB color gamut. Witness stunning visuals with exceptional color accuracy and richness, enhancing your overall gaming experience.

4000:1 | 300cd/m² | SDR | HDR400

Superior Brightness and Contrast

Enjoy outstanding visual clarity with a brightness of 300 nits and a high contrast ratio of 4000:1. Revel in rich details, deep blacks, and bright highlights, bringing your games to life with incredible depth and realism. HDR400 support ensures enhanced dynamic range and contrast, further enhancing your visual immersion.
